FORWARD
PHILIPPIANS 3:13

Word of Life

Brethren, I do not count myself to have apprehended: but one thing I do, forgetting those things which are behind and reaching forward to those things which are ahead

MISSION TRIP TO MASINDI

2711 people were reached and 1194 made decisions to follow Christ. Praise God for the boldness given in taking a big step as we spoke to the exhibitors and the exhibition organizers. We also visited Kabalega primary school and Army secondary school where we got to share with gospel with students and soldiers. Continue to pray that the Lord will fully transform their hearts and lives.

3 SCHOOLS, 3 RALLIES!

Under the Theme: "Making Right Choices", we took part in 3 school rallies at St. Lawrence Horizon campus, Elite High School and St. Lawrence Academy where different activities like sports, bible hour and one-on-one interactions were effectively used to evangelize and disciple the high school students from the above schools. 1300 students were reached and 155 made decisions to follow Christ. Continue to pray for changed lives.

Deo sharing with students of Elite High school

TEENS CAMP

A high energy experience where young people connected with God and others in fun and exciting ways! Under the theme “Forward”, with a specific focus on Biblical Sexuality (Galatians 5:16-26), our goal was to encourage the campers to recognize the basic truth that Christians live by higher values than what the normal culture dictates. Through exciting games, group discussions and distinguished speakers like Tim Hawkins, Muwanguzi Deogratious, Miriam Onen and Biruk Moore, the campers got to be challenged and inspired to exercise virtue and prudence as they establish the design of their lives during the camp that took place from 26th – 30th August. 76 campers attended the camp and of these, 27 made salvation decisions and 13 dedicated and committed to follow and live for Christ no matter what temptations may come their way.

Campers Testimonies

I am so thankful for this camp because it helped me know how I should resist my fleshly desires and follow God. It also gave me the confidence and boldness to do evangelism and grow spiritually in my thoughts, actions, behaviour and speech.

Humble Precious

While I was at school, I was always caught on the wrong side of things and would always be summoned by the Disciplinary Committee for several issues. I'm grateful to God because I was able to come for the camp and learn about lessons that challenged to change my attitude. I gave my life to Christ and made a choice for Him to be my remote controller. I believe that I will return back to school next term as a changed person.

WOL GOVERNANCE SUMMIT

It was delightful to have people who love and support the ministry be refreshed through the Governance Summit that took place on Saturday, 17th August. Dr. Dickson Obwoya, one of our guest speakers in his session challenged the leaders and board members to be originators of transformation. Pray that the leaders will have an intimate relationship with Jesus Christ displayed in Christ like character and service.

WOLIS SCIENCE FAIR

Connecting Science and God can be an interesting challenge especially when young minds come together to try and interact with God's mind through the mystery of His creation. On 9th August, Word of Life International School (WOLIS) students captivated the eyes of parents in this year's science fair under the theme "Displaying God's Majesty through Science". Projects displayed showcased a diversity of scientific evidence that God is indeed in Science. The best projects noted by the parents were the Automated House (G.11), Water Purification (G.1&9) and Hydraulic Power (G.5). A big thank you to all the parents who came to support the students, the teachers who guided them and the students for taking the risk to make this year's Science Fair a success. Continue to encourage the students at home to experience science through God's eyes.
